

Wang Pharmaceuticals & Chemicals

To our valued customers,

As we are in midst of COVID-19, a global pandemic, we would like to assure you that we are following all government guidelines and taking precautionary steps to prevent further spread of the novel coronavirus (COVID-19).

The health and safety of our associates and our customers is always our top priority. We continue to require our employees maintain proper hygiene standards while handling our products. In addition, we enhanced communication in our facilities and circulated all current information to our associates from the Department of Health regarding limiting the spread of the virus. We also have established meeting and visitor guidelines in an effort to reduce in-person interactions.

As the situation evolves, we will take additional actions as needed to ensure we remain proactive and nimble in our response to new developments.

Regarding our supply chain system, we maintain business continuity plans and will implement those plans as needed. We do not expect any impact to our customers at this time. However, if our operations become heavily impacted, we will inform you of any modifications in service.

We work aroundour four values: Quality, Future Thinking, Consistency and Integrity. Thank you again for trusting us and our values.

Stay Safe!
