MANUFACTURING UNITS

We have two FDA and cGMP approved units in Delhi, India & in Haryana, India. Both units are 'Lean Manufacturing' enabled where we focus on continuous improvements and producing high quality products.

INNOVATION

We are in the process of digitizing our supply chain system. This will ensure visibility and traceability to all our business partners. We are investing in our people, processes and technology.

QUALITY

Our operations are driven by best-in-class technology and processes that abide by all major stringent regulatory approvals. Our systems comply with cGMP, allowing us to meet FDA standards.

SOCIAL RESPONSIBILITY

We can not succeed if the society around us fails. Corporate Social Responsibility is at the core of our business. We believe in establishing sustainable communities by investing in people.
